

```
1 #operators and expressions
2 # first we go through expressions
3 # expression is just like
4 # ex 2* y+5
5 # mul(2,sum(y,5))
6
7 # "harsh"+"harsh"
8 # this print harshharsh
9 2>3
10
11 #short circuiting
12 # a or b= a {if a is truthy}
13
14 # true or b= true
15 # false or b = b
16
```
